STONE CHARACTERISTICS OUTSIDE PHOTO RANGE MAY VARY

There are likely to be variations in consistency of colours and textures, appearance and quality in the finished product of the hardened concrete, as the raw ingredients are natural and subject to variations beyond our control. Whilst every effort has been made to match the colours in the preparation of this document, reproductive processes will alter the actual appearance in the concrete products to varying degrees.

The concrete samples shown are indicative only of the finished concrete product, and no guarantee of the colours or textures of the product is given or implied by this document.

PRODUCT NAME:

Beach Ivory Quarter Roman Beige

Naturally occurring, large white/orange quartz pebbles set in an ivory and quarter roman beige base

Things you should know

Warm neutral tones that produce an understated elegance.

Cream greys look smooth and modern in any setting.

Great choice for a pool surround.
The smooth pebble offers a comfortable surface to make contact with your skin.

Similar projected colour to Vic Mix Beach Ivory Exposed Aggregate. An enhanced base colour is achieved by combining an ivory base with quarter roman beige pigment.

SPECIFICATION:

Vic Mix Beach Ivory Quarter Roman Beige 25MPa Exposed Aggregate Concrete
