STONE CHARACTERISTICS OUTSIDE PHOTO RANGE MAY VARY

There are likely to be variations in consistency of colours and textures, appearance and quality in the finished product of the hardened concrete, as the raw ingredients are natural and subject to variations beyond our control. Whilst every effort has been made to match the colours in the preparation of this document, reproductive processes will alter the actual appearance in the concrete products to varying degrees.

The concrete samples shown are indicative only of the finished concrete product, and no guarantee of the colours or textures of the product is given or implied by this document.

PRODUCT NAME:

BAHRAIN HALF BLACK

White, grey and beige pastel colours abound in this small pebble set in an ash and half black pigment base.

Things you should know

Best described as a charcoal base. It sets a great colour against which the neutral grey beige tones of this pebble will contrast nicely to create a pleasant and welcoming surface for entertaining or the practical needs of a pathway or driveway.

The naturally rounded and smoothed shape of the small pebbles in this product is well suited for pool surrounds. It provides grip whilst not being too harsh to walk on in bare feet.

SPECIFICATION:

Vic Mix Bahrain Half Black
25MPa Exposed Aggregate
Concrete

ORDER CODE:

X_BAHHB
