STONE CHARACTERISTICS OUTSIDE PHOTO RANGE MAY VARY

There are likely to be variations in consistency of colours and textures, appearance and quality in the finished product of the hardened concrete, as the raw ingredients are natural and subject to variations beyond our control. Whilst every effort has been made to match the colours in the preparation of this document, reproductive processes will alter the actual appearance in the concrete products to varying degrees.

The concrete samples shown are indicative only of the finished concrete product, and no guarantee of the colours or textures of the product is given or implied by this document.

PRODUCT NAME:

ARCHIPELAGO
IVORY
Abrasive Blasted

Aqua greens and earthy browns in an Off White cement and sand base.

Things you should know

The unusual colours and characteristics of this stone blend produce a finish which is quite unique and well suited when used in combination with slate rock walls and other heavy slate stone landscaping features.

The projected colour from large areas of this product is dominated by earthy green tones.

Abrasive Blasted surfaces offer a gentler texture over conventional Exposed Aggregate. The tactile experience is best described as irregular and smooth. Bare feet will love the touch of this finish.

SPECIFICATION:

Vic Mix Archipelago Ivory
25MPa Abrasive Blasted
Concrete

ORDER CODE:

W_ARCIV
