STONE CHARACTERISTICS OUTSIDE PHOTO RANGE MAY VARY

There are likely to be variations in consistency of colours and textures, appearance and quality in the finished product of the hardened concrete, as the raw ingredients are natural and subject to variations beyond our control. Whilst every effort has been made to match the colours in the preparation of this document, reproductive processes will alter the actual appearance in the concrete products to varying degrees.

The concrete samples shown are indicative only of the finished concrete product, and no guarantee of the colours or textures of the product is given or implied by this document.

PRODUCT NAME:

BEACH IVORY Abrasive Blasted

White/orange quartz pebble set in an off white cement and sand base.

Things you should know

Warm neutral tones that produce an understated elegance.

Cream grey looks great with rendered limestone and modern georgian architecture.

Abrasive Blasted surfaces offer a gentler texture over conventional Exposed Aggregate. The tactile experience is best described as irregular and smooth. Bare feet will love the touch of this finish.

SPECIFICATION:

Vic Mix Beach Ivory
25MPa Abrasive Blasted
Concrete

ORDER CODE:

W_BCH1V

REVISION: 29/12/2015
