STONE CHARACTERISTICS OUTSIDE PHOTO RANGE MAY VARY

There are likely to be variations in consistency of colours and textures, appearance and quality in the finished product of the hardened concrete, as the raw ingredients are natural and subject to variations beyond our control. Whilst every effort has been made to match the colours in the preparation of this document, reproductive processes will alter the actual appearance in the concrete products to varying degrees.

The concrete samples shown are indicative only of the finished concrete product, and no guarantee of the colours or textures of the product is given or implied by this document.

PRODUCT NAME:

AFRICANUS BLACK Abrasive Blasted

Crushed 14mm Milky Grey
Quartzite set in a grey cement and
Black pigment base.

Things you should know

The stone used in this product is the purest white quartz we can source.

It is also a rare resource and availability is often restricted when demand exceeds the quarry's ability to supply.

Abrasive Blasted surfaces offer a gentler texture over conventional Exposed Aggregate. The tactile experience is best described as irregular and smooth. Bare feet will love the touch of this finish.

SPECIFICATION:

Vic Mix Africanus Black
25MPa Abrasive Blasted
Concrete

ORDER CODE:

X_AFRBK

REVISION: 01/06/2011
