STONE CHARACTERISTICS OUTSIDE PHOTO RANGE MAY VARY

There are likely to be variations in consistency of colours and textures, appearance and quality in the finished product of the hardened concrete, as the raw ingredients are natural and subject to variations beyond our control. Whilst every effort has been made to match the colours in the preparation of this document, reproductive processes will alter the actual appearance in the concrete products to varying degrees.

The concrete samples shown are indicative only of the finished concrete product, and no guarantee of the colours or textures of the product is given or implied by this document.

PRODUCT NAME:

## MAKITA 55 DUNE SAND Abrasive Blasted

Aqua greens and earthy browns of a unique crushed rhyodacite stone blended with white/grey pebbles and set in an ash and Dune Sand pigment base.

### Things you should know

Bright and colourful. Reminiscent of wild ocean beaches.

Abrasive Blasted surfaces offer a gentler texture over conventional Exposed Aggregate. The tactile experience is best described as irregular and smooth. Bare feet will love the touch of this finish.

SPECIFICATION:

Vic Mix Makita 55 Dune sand  
25MPa Abrasive Blasted  
Concrete

ORDER CODE:

X\_MKA55DS

REVISION: 23/12/2015
